Dear Sir/Madam

DWIB LEUKAEMIA TRUST
INVITATION TO BE A PATRON OF THE TRUST

The Dwib Leukaemia Trust (Ghana) has been formed with the aim to increase awareness of leukaemia in the West African sub-Region and create access to effective diagnostic and treatment resources. Most of all, it aims to set up the first bone marrow register in West Africa, possibly at the Korle- bu Teaching Hospital.

We acknowledge with deep respect your singular achievements in your field of endeavour and your interest in progress and development. It is in the light of this that we feel honoured to invite you to become a patron of the organization. We believe that your credibility and respect will greatly enhance the achievements of the Trust's noble aims and objectives.

We hope that should you accept, together, we shall convert the unpleasant tragedy of leukaemia into hope for future sufferers.

We look forward to your positive response (Please find an endorsement section attached for your convenience or you could opt to reply yourself) at your earliest convenience.

Thanking you,

Danny Whyte
Executive Director

For lack of knowledge our people are dying

DWIB LEUKAEMIA TRUST (GHANA)

PATRON'S ENDORSEMENT
